Wecryl 488 Color System

Formerly **ALT Pigment 288**

PRODUCT DESCRIPTION

The Wecryl 488 Color System provides a range of standard and custom color options for compatible WestWood PMMA surfacing systems. Engineered for long-term color stability, UV resistance, and aesthetic consistency, these pigmented finishes are designed for use in parking, pedestrian, balcony, and other exposed surfacing applications requiring durable, decorative, and customizable coloration.

Standard colors are available in a range of commonly specified RAL shades (see below). Custom colors are available upon request, subject to minimum order quantities and lead times.

STORAGE

Store in a cool, dry location away from direct sunlight and ignition sources. Recommended storage temperature is between 32°F (0°C) and 77°F (25°C).

SAFETY INFORMATION

Refer to the applicable Safety Data Sheet (SDS) for complete handling, storage, disposal, and personal protective equipment recommendations.

NOTE

Colors shown are intended as a general representation only. Actual appearance may vary due to printing limitations, monitor settings, lighting conditions, surface texture, and installation conditions. Physical samples are recommended for final color approval.
