

WePly HYBRID SOLUTIONS

SBS-modified Membrane Systems by WestWood USA

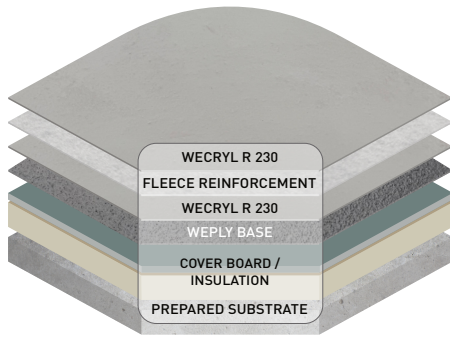

WestWood's **WePly** SBS-modified bitumen membranes are designed to work seamlessly with our advanced **Wecryl** PMMA liquid-applied systems and offering the best of both worlds: the durability of sheet-applied membranes and the unparalleled performance of PMMA applications.

WestWood's hybrid assemblies offer numerous configurations to meet the needs of your structure, offering durability, flexibility, and long-term protection tailored to the demands of modern roofing and waterproofing.

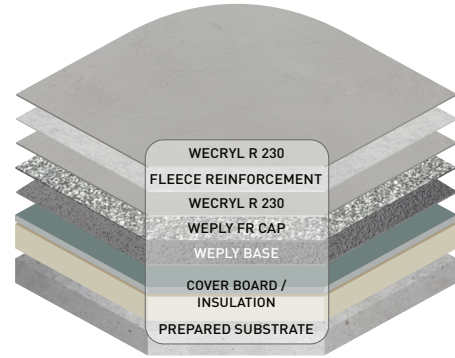

ROLL NAME	ASTM STANDARD	SIZE	APPLICATION	BOTTOM SURFACE	TOP SURFACE
BASE PLIES					
WePly Base	D6163 Type I, Grade S	1.5 sq roll	Torch applied	Poly film	Sanded
WePly HD Base	D6163 Type I, Grade S	1 sq roll	Torch applied	Poly film	Sanded
WePly SA Base	D6163 Type I, Grade S	1.5 sq roll	Self-adhered	Release film	Sanded
WePly Poly Base	D6164 Type I, Grade S	1 sq roll	Torch applied	Poly film	Sanded
CAP PLIES					
WePly FR Cap	D6163 Type I, Grade G	1 sq roll	Torch applied	Poly film	Granules
WePly Poly FR Cap	D6164 Type I, Grade G	1 sq roll	Torch applied	Poly film	Granules

WEPLY / WECRYL HYBRID SYSTEM - STANDARD CONFIGURATION

WePly Base / Wecryl R 230

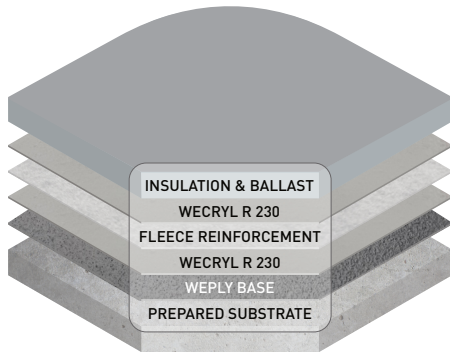

Combining the benefits of SBS membrane protection with a seamless and fully reinforced PMMA liquid-applied application.

WePly Base / WePly Cap / Wecryl R 230

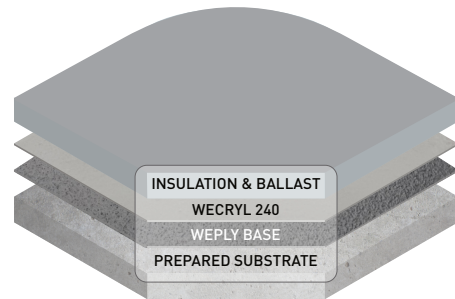

Our premium system, featuring two plies of SBS coupled with a seamless and fully reinforced PMMA liquid-applied application.

WEPLY / WECRYL HYBRID SYSTEM - PRMA CONFIGURATION

WePly Base / Wecryl R 230

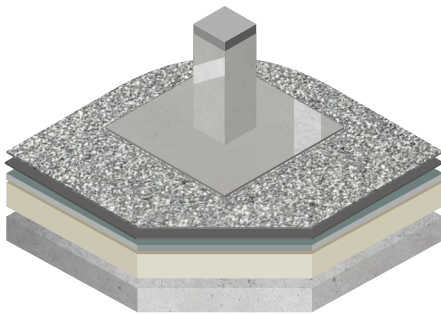

This direct-to-deck application simplifies surface preparation and features an SBS base ply with a fully reinforced PMMA application.

WePly Base / Wecryl 240

Wecryl 240 can be installed in a non-reinforced configuration while still offering seamless waterproofing protection for your structure.

WEPLY / WECRYL HYBRID SYSTEM - FLASHING CONFIGURATION

Assembly:

Specified insulation and cover board
WePly base ply
WePly granulated cap ply

Flashing application:

Wecryl R 230 Thix with fleece reinforcement
Wecryl R 230 Thix

When you combine WePly with Wecryl, you're not just getting a roof — you're getting a system that's built to adapt, built to last, and backed by our commitment to innovation, flexibility, and performance.

RELIABLE PROTECTION. SEAMLESS PERFORMANCE. WESTWOOD SOLUTIONS.
